Mokume gane is an ancient Japanese technique that bonds numerous layers of precious metals into a single piece that is then worked into beautiful patterns. The name, *mokume gane*, means in Japanese wood grained metal and is a traditional technique for creating a decorative pattern from precious or semi-precious metals. I made some gemstone-like polymer clay mokume gane cabochons for a polymer clay mokume gane tutorial with step-by-step instructions for making a mokume veneer sheet that can be used to cover polymer clay beads or other forms and, mokume gane with the masters Chris Ploof James Binnion - register now course description tuition schedule mokume gane is one of the most challenging techniques in the field of jewelry making but it doesn't have to be, mokume gane reviving a rare form of samurai sword guard - the round sword guard of a samurai sword worked as a counter balance to the weight of the weapon served as protection to the samurai’s knuckles and was, mokume gane freethoughtblogs.com - mokume gane is a Japanese metallurgical technique for creating a decorative pattern welded material from precious or semi-precious metals.
